THIS IS A NEW CONTRACT.

This contract covers only those items listed in the price schedule. It is the responsibility of the agency to ensure that other items purchased are invoiced separately. State agencies will place orders directly with the vendor (creating a PG in Finet) and make payments for the same on a PV referencing the original PG. Agencies will return to the vendor any invoice which reflects incorrect pricing.

AUTHORIZATION REQUIRED FOR ALL STATE AGENCIES: PURCHASE REQUIREMENTS BY STATE AGENCIES FOR APPLICATIONS USING A NON-ENCRYPTED DEVICE THAT WILL HAVE NETWORK INTERFACE, CONNECTIVITY, OR ACCESS TO THE INTERNET, MUST FIRST BE AUTHORIZED BY THE DIVISION OF INFORMATION TECHNOLOGY SERVICES (ITS), RICK GEE, (801) 538-9567, rgee@das.state.ut.us.

Executive Summary

Arch Wireless is the leading mobile information and Two-Way messaging company, providing wireless messaging, wireless E-mail, wireless data and traditional paging services throughout the United States, Canada and Mexico. Arch Wireless was created through the merger of Arch Communications and PageNet. Arch Wireless is the largest messaging company in North America with over 10 million units in service. Arch's competitive benefits include:

- _ Most extensive local and nationwide traditional paging networks
- _ Robust and ubiquitous Reflex 25 Two-Way wireless network
- _ Proprietary Wireless Messaging Engine
- _ WCTP communication gateway

Arch Wireless commits the following services and pricing to the State of Utah:

Traditional Paging

Timeport	\$18.50	\$339.00

Complete pricing details and additional service options including voicemail, extended coverage, operator dispatch, toll free numbers and others are available for nominal fees. Associated charges are listed in addendum section.

Motorola BR850

Motorola's BR850 is designed for busy professionals who depend on their pagers to juggle demanding work and social schedules. This numeric pager, available with FLEX technology, offers many enhanced features, including: 60 message slots; the ability to save messages when changing the battery; three smart alarms; time and date on standby; selective erase; private time; volume control; and seven musical alerts. In addition, BR850 has silent vibration, message time and date stamping, the ability to lock messages and an E-Luma-Glow soft blue display for superior readability.

The T900 Features:

FLEX™ Capability

Offers users the latest and most efficient technology affording extended battery life and page reliability.

Display:

- Shows Time and Date.
- E-Luma-Glow Display. Soft blue display for superior readability in low-light conditions.

Indicators/Alert Features:

- Smart Alarm: 3. Set 3 individual built-in alarm clocks to alert you once, daily or weekly as an event reminder. Great for organizing a busy schedule.
- User Selectable Alerts. Choose a favorite, or change your alert so you can differentiate your pager from others.
- Vibrating Alert. You can be alerted of incoming messages in a noisy environment or discreetly alerted when you do not want to disturb those around you with a loud alert.
- Volume Control. Set pager alert volume to low, medium, or high.
- Low Battery Indicator. Notifies you that your battery is getting low and needs to be replaced - helping to ensure that you don't miss any messages.
- Reminder Alert. A short friendly alert reminds you when you have not reviewed your messages.

**Messaging Features:**

- 60 Message Slots. Plenty of memory to receive and store all your important messages so you can refer to them when needed.
- Message Time and Date stamping. Helps you prioritize your messages by knowing exactly what date and time they were received.
- Quick Words. Turns number codes into words. Friends and family send a code, you get the message in "words"!
- Message Lock. Lock important messages so they will not be accidentally erased.
- Selective Erase. Allows you to erase messages that are no longer needed, thereby keeping your pager's memory organized.
- Erase All. Keep your memory slots organized by easily erasing all unlocked messages when you no longer need to save them.
- Memory Retention. Don't accidentally erase important messages by turning off your pager - the messages are retained when the pager is off.
- Duplicate Message. Duplicate Messages are stored in the same memory slot as original message - saving memory space for new messages. The latest timestamp is used and a Duplicate prompt is displayed when the message is read.

-

Technology:

- FLEX™ Capable for the most Advanced Paging Reliability
- Battery Backup. Retains messages in memory while replacing the battery.
- Battery: 1 AAA. Battery is small, lightweight and replacements readily available.
- Removable Beltclip. Wear your pager with the clip out, change clip colors, or take the clip off and slip it easily into your pocket or purse.

Control Features:

- Private Time. Provides the ability to turn off all pager alerts during specified times and still receive your messages.

Motorola Advisor Elite

A four line word message pager with the ability to store 30,000 characters makes this a powerful communications tool. The side-mount OPTIMAX EL Electra Light Display provides exceptional clarity and optimum readability in low-light conditions. With 34 message slots, message time stamping, and a variety of selectable alerts you are in charge of all your messages.

The Advisor Elite Features:

FLEX™ Capability

Offers users the latest and most efficient technology affording extended battery life and page reliability.

Display:

- 4 line display for easy to read entire text messages at a single glance
- Zoom display allows two lines to zoom in for a larger view of your messages
- OPTIMAX™ electra light display providing exceptional clarity and optimum readability in low-light conditions
- Shows date and time
- Backlit display to easily read messages at night or in a low light environment

Indicators/Alert Features:

- User selectable alert, including vibrating alert
- Battery gauge
- Message alarm to remind you of important dates

Messaging Features:

- 30,000 total character memory
- 34 message slots
- Notebook entries to store any messages containing names and phone numbers for easy reference
- Message time stamping

- Message preview
- Message lock, selective erase, and erase all
- Memory retention retains messages in memory while replacing the battery
- Duplicate messages stored in the same memory slot as original
- Battery: 1 AA

Technology:

- FLEX™ Capable for the most Advanced Paging Reliability
- Information Services Capable.
- Private time allowing you to receive messages while all alerts are shut off
